TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 42-9]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

SECOND PILOT QUALIFICATIONS FOR LARGE AIRCRAFT OPERATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 10th day of August 1951.

Certain provisions of Part 42 of the Civil Air Regulations require a pilot serving as second pilot on large aircraft to possess a commercial pilot certificate with an "appropriate rating" for the aircraft on which he is to serve as well as a currently effective instrument rating. Strictly construed, the term "appropriate rating" means "type rating" which a second pilot must separately obtain for aircraft of each type on which he is to serve. The proficiency essential to an aircraft type rating must be satisfactorily demonstrated to the Administrator and includes skills and maneuvers not required of second pilots engaged in scheduled operations under Part 40. This difference in standards of competency for second pilots is not intended; indeed, the administrative history of the pertinent regulations supports the Board's intention to establish equivalent qualifications for airmen serving in scheduled operations and in irregular large aircraft operations.

Consistent with this purpose, this amendment provides that in operations under Part 42 a pilot serving as second pilot in large aircraft shall possess a valid commercial rating and a valid instrument rating, unless he holds a valid airline transport pilot rating, and that he shall demonstrate to the Administrator his ability to take off and land each type of aircraft on which he is to serve by making at least three satisfactory take-offs and landings. It should be noted that first pilots serving in either scheduled or irregular large aircraft operations are currently required to possess valid airline transport pilot ratings with type ratings for aircraft in which they serve.

The Board is advised that strict enforcement of the currently effective qualification requirements for second pilots in operations under Part 42 would substantially impede the operations of many carriers and adversely affect the national mobilization program. It is the

Board's opinion that this amendment appropriately amending second pilot qualifications is warranted in these circumstances.

For the reasons stated above the Board finds that notice and public procedure hereon are impracticable and contrary to the public interest, and that, since this regulation imposes no burden on anyone, good cause exists for making this regulation effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 42 (14 CFR Part 42, as amended) effective immediately:

By amending § 42.43 (b) to read as follows:

§ 42.43 *Pilot qualifications for large aircraft.* * * *

(b) *Second pilot.* Before a pilot shall serve as second pilot on large aircraft, he shall:

(1) Possess a valid commercial pilot rating and instrument rating, or a valid airline transport pilot rating, and

(2) Demonstrate to an authorized representative of the Administrator, or to a check pilot designated by the Administrator, his ability to take off and land each type of aircraft on which he is to serve by making at least three satisfactory take-offs and landings in each type.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, as amended, 1008; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

FRED A. TOOMBS,
Acting Secretary.

Loan Bank Board (24 CFR Part 108) and § 167.1 of the rules and regulations for insurance of accounts (24 CFR 167.1), effective August 17, 1951:

The sentence at the end of § 163.9 of the rules and regulations for insurance of accounts (24 CFR 163.9) reading as follows: "(c) Any insured institution may, to the extent it has legal power to do so, purchase loans secured by real estate from the Home Owners' Loan Corporation without regard to preceding provisions of this section." is hereby rescinded; and § 163.10 of the rules and regulations for insurance of accounts (24 CFR 163.10) is hereby amended by repealing the phrase "nor to loans purchased from the Home Owners' Loan Corporation." appearing at the end of such section and by changing the comma immediately preceding such phrase to a period.

Resolved further that, the regulatory requirements being repealed by the aforesaid action being obsolete by reason of the Home Owners' Loan Corporation having sold its loans, notice and public procedure upon the regulation are unnecessary and there is no reason for deferring the effective date of the regulation beyond the date of publication in the FEDERAL REGISTER.

M-46A—PRIORITY ASSISTANCE FOR FOREIGN PETROLEUM OPERATIONS

This order is found necessary and appropriate to promote the national defense and is issued pursuant to the au-

thority granted by section 101 of the Defense Production Act of 1950, as amended. Consultation with industry representatives in advance of the issuance of this order has been rendered impracticable due to the fact that it applies to all branches of the foreign petroleum industry.

AUTHORITY: Sections 1 to 11 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, as amended; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Sup.; sec. 2 E. O. 10200, Jan. 3, 1951, 16 F. R. 61.

SECTION 1. *What this order does.* This order explains how priority assistance is made available to petroleum operators to obtain material for use in all countries except the United States and Canada. The order establishes two procedures to be followed in obtaining and using priority assistance. The first procedure relates to use of material for large construction operations. A large construction operation is any one complete construction operation with a total material cost over \$10,000. The second procedure relates to material obtained for any use other than use in a large construction operation. This second procedure includes material for use in production, small construction operations, maintenance, repair, operating supplies, and laboratory equipment.

SEC. 2. *Definitions.* (a) "Operator" means any person to the extent that he is engaged in the petroleum industry outside of the United States, its territories or possessions, or the Dominion of Canada.

(b) "Applicant" means any operator or his agent who, under the Office of International Trade export control regulations, is authorized to apply for an export license.

(c) "Petroleum" means crude oil and associated hydrocarbons, and the products thereof, including but not limited to natural gas.

(d) "Petroleum industry" includes any of the following activities and any operations directly incident to these activities as they pertain to petroleum:

(1) The discovery, development, or depletion of petroleum (production);

(2) The extraction or recovery of natural gasoline or associated hydrocarbons (natural gasoline recovery);

(3) The movement, loading, or unloading of petroleum (transportation);

(4) The processing, reprocessing, or alteration of petroleum, including but not limited to compounding or blending (refining);

(5) The distribution or dispensing of petroleum, or the products thereof, and

the storage incident thereto (distribution); and shall include for each of the above listed branches of the industry, to the extent applicable, the control of, or the investigation into, more effective methods of conducting petroleum operations by means of research, technical, or control laboratories.

(e) "Construction operation" means any use of material for construction, expansion, improvement, or reconstruction, incident to any branch of the petroleum industry other than production.

(f) "Program letter" means a letter from the Petroleum Administration for Defense to an applicant approving an operating program to be carried out by the applicant.

(g) "Controlled material" means steel, copper, and aluminum, in the forms and shapes indicated in Schedule I of CMP Regulation No. 1.

SEC. 3. Assignment of symbols. (a) Symbols are used to identify programs, uses of material, and countries in which materials obtained with the symbols are to be used. An appropriate symbol, together with a quarterly designation, constitutes an allotment number, which the applicant may use, where authorized, to obtain controlled material. The allotment number is used to identify quantities of controlled material which the applicant is authorized to obtain. An appropriate symbol, preceded by the letters "DO," constitutes a rating which the applicant may apply, where authorized, to obtain material other than controlled material.

(b) The following are the symbols to be used by an applicant to procure material for use in the petroleum industry in countries other than the United States or Canada:

Type of material to be procured	ECA countries		Other countries	
	Large construction operations	Other	Large construction operations	Other
Controlled material.....	W-3.....	W-4.....	W-1.....	W-2.....
Other than controlled material.....	DO-W-3.....	DO-W-4.....	DO-W-1.....	DO-W-2.....

(c) Schedule I of this order identifies the ECA countries. W-3 and W-4 program identification symbols must be used for materials which are to be used in the ECA countries as set forth in Schedule I. W-1 and W-2 program identification symbols must be used for materials which are to be used in all other countries, except the United States and Canada.

(d) Whenever any symbol is used to obtain controlled material, it must be followed by an appropriate quarterly designation. This quarterly designation represents the calendar quarter of the year during which the operator is permitted to take delivery in the United States of authorized quantities of controlled material. Thus, if the applicant were authorized to use controlled material in a large construction operation in France and the authorization were for delivery in the United States of that material in the first quarter of 1952, he would use the symbol W-3 followed by the abbreviation 1Q52. The complete symbol would be, therefore, W-3-1Q52.

SEC. 4. Large construction operations. Form PAD-26A, filed in accordance with the instructions printed thereon, must be used in connection with the priority assistance made available in this order for materials to be used in a large construction operation. A large construction operation is any one complete construction operation with a total material cost over \$10,000. Form PAD-26A is filed to obtain priority assistance for all materials going into the construction operation which it covers. After the form has been returned to the applicant indicating approval and the extent to which he may use priority assistance, the applicant may, to that extent, place delivery orders bearing the appropriate identification set forth in section 3 (b) of this order.

SEC. 5. All operations other than large construction operations. (a) Form IT-

824, filed quarterly in accordance with the instructions printed thereon, must be used in connection with the priority assistance made available in this order for any material to be used in the industry other than material used in a large construction operation.

(b) If a program letter has been issued to an applicant, he may, without securing prior approval of his Form IT-824, use the appropriate symbol set forth in section 3 (b) of this order to obtain items, other than those listed in Schedule II of this order necessary for the operations covered by his program letter. To obtain items listed in Schedule II, an applicant may not use a symbol until his Form IT-824, filed as required, has been returned to him indicating approval and the extent to which he may use priority assistance. Even if an applicant has a program letter and no Schedule II items are involved, he must file for an export license on Form IT-824, which form, when approved, is an export license for the materials approved thereon.

(c) If a program letter has not been issued to an applicant, he may not use the appropriate symbol required for priority assistance until a Form IT-824, filed as required, has been returned to him, indicating approval and the extent to which he may use the priority assistance.

(d) Schedule II of this order may be amended from time to time by the addition or deletion of items. To facilitate the filing of Form IT-824, the Petroleum Administration for Defense may, in advance of a published amendment of Schedule II, give notice by letter of such prospective amendment to all applicants to whom a program letter has been issued. No applicant receiving such notice shall, after the effective date specified in the notice, use the priority assistance of section 3 (b) of this order for items which have been added, unless as to these items specific approval has been

obtained through the filing of Form IT-824.

SEC. 6. Limitations on priority assistance. Directives may be issued from time to time with respect to the priority assistance obtainable through the use of either Form IT-824 or PAD-26A. Except as modified by such directives, the provisions of this order shall remain applicable. An operator who is entitled to use the priority assistance of this order shall not use any form of priority assistance otherwise made available to the extent that such assistance is available through this order. This provision, however, shall not prevent the rerating of any delivery pursuant to applicable regulations or procedures or the use of priority assistance otherwise granted where specific directions to this effect have been issued.

SEC. 7. Emergency or interim assistance. (a) Form IT-824 may be used in requesting priority assistance where, because of an emergency or for other reasons of necessity, the operator requires material not included on his current Form IT-824 or requires material in greater quantities or on earlier dates than requested in his current Form IT-824. In filing Form IT-824 for emergency or interim assistance, the operator need itemize only those items in those quantities on which assistance is being requested due to the necessity for emergency or interim assistance.

(b) Form PAD-26A may be used as an amendment form to effect changes in delivery dates or quantities of material required for use in the project covered by the original form. Where the form is used as an amendment, reference must be made to the original authorized document and requested adjustments must be specifically set forth. In that circumstance, he may not use the appropriate symbol until such time as the amended form has been returned to him indicating approval and the extent to which he may use the priority assistance.

SEC. 8. Certification. In order to use any symbol authorized pursuant to this order, the applicant must endorse on or attach to each delivery order the appropriate symbol as well as a certification in the following form:

Certified under NPA Order M-46A

SEC. 9. Effect of revocation or denial of export authority. If an export license, statement of export clearance, or statement of authority to export any material is revoked or if an export license is denied, any symbol authorized pursuant to this order for material covered by such export license, clearance, or authority shall thereby be revoked as regards delivery of such material to the applicant. The applicant must then notify his supplier or suppliers of the cancellation and may take no delivery of material ordered by use of such symbol. The applicant must also promptly notify the Petroleum Administration for Defense of the cancellation of any orders for any affected Schedule II item or any item designated as a Schedule II item.

RULES AND REGULATIONS

SEC. 10. Records, reports, and forms.

(a) Each person participating in any transaction covered by this order shall make and retain in his files for at least 2 years, records of receipts, deliveries, inventories, and use, in sufficient detail to permit an audit that determines for each transaction that the provisions of this order have been met. This does not specify any particular accounting method, nor does it require alteration of the system of records customarily maintained, provided the system provides an adequate basis of audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(b) All records required by this order shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of NPA.

(c) Persons subject to this order shall make such records and submit such reports to NPA as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139-139F).

SEC. 11. Violations. Any person who wilfully violates any provision of this order or any other order or regulation of the National Production Authority, or who wilfully conceals a material fact or furnishes false information in the course of operation under this order is guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both. In addition, administrative action may be taken against such person to suspend his privileges of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priority assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order shall take effect on August 15, 1951.

[NPA Order M-80]

M-80—IRON AND STEEL—ALLOYING MATERIALS AND ALLOY PRODUCTS

This order is found necessary and appropriate to promote the national defense and is issued pursuant to authority granted by section 101 of the Defense Production Act of 1950, as amended. In the formulation of this order, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all trades and industries affected in advance of the issuance of this order has been rendered impracticable due to the necessity for immediate action and because the order affects a large number of different trades and industries.

INTRODUCTORY

SECTION 1. *What this order does.* (a) This order in general covers alloying materials and alloy products. It requires all melters and processors to file proposed melting or processing schedules and data concerning inventories. It requires authorization of melting or processing schedules by National Production Authority (hereinafter called "NPA"), and permits NPA to make changes therein. Certain schedules issued with this order require complete allocation of certain alloying materials and provide for the filing of applications with NPA for allocation authorizations; and these schedules also prohibit certain uses of specific alloying materials and alloy products. The order provides for the issuance of additional schedules when and if other alloying materials are to be made subject to allocation or to use limitations, or the use of any other alloy product is to be limited or prohibited. It contains provisions incidental to the effectuation of the foregoing in support of the Controlled Materials Plan and other programs requiring these alloying materials.

(b) Effective September 1, 1951, this order together with the schedules issued pursuant hereto and Order M-81 completely supersede present NPA Orders M-3, M-10, M-14, M-30, M-33, M-49 and M-52, and sections 14 and 18 (b) of NPA Order M-1. Order M-81 covers pure tungsten and pure molybdenum, but other forms of tungsten and molybdenum, as defined in List I of this order, are covered by this order. However, this superseder does not relieve any person of any liability or obligation incurred under any of the orders mentioned in the first sentence of this paragraph, nor does it take away any right received thereunder, it being intended that any such liabilities, obligations, and rights shall continue. Without limiting the generality of the preceding sentence, any requirements in any of the foregoing orders

for filing forms or applications, or for granting any authorizations or approvals thereunder, shall continue until the date when the filing of any such forms or applications or the granting of any such authorizations or approvals is required or provided under this order and schedules; and any authorizations of melting schedules or allocations heretofore given or hereafter given pursuant to any of the foregoing orders, shall continue in full force and effect. To a certain extent, this order is a rewriting of the said existing orders for the purpose of convenience in administration and for clarity. This order contains some new provisions not contained in said orders, including among others an additional list of prohibited nickel-bearing stainless steel products.

(c) Schedules 1 to 5, inclusive, and Schedules A and B are being issued on the effective date of this order. Those schedules are as follows: Schedule 1—Nickel; Schedule 2—Cobalt; Schedule 3—Tungsten (excluding pure tungsten); Schedule 4—Molybdenum (excluding pure molybdenum); Schedule 5—Columbium and Tantalum; Schedule A—Nickel-Bearing Stainless Steel, High Nickel Alloy, and Nickel Silver; Schedule B—High Speed and Tool Steel.

SEC. 2. *Definitions.* As used in this order:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States or any other government. A person who keeps separate inventory records for any separate operating or producing unit shall treat each such separate operating or producing unit as a separate person for the purposes of this order, unless NPA otherwise directs or permits upon application of such person.

(b) "Alloying material" means any one of the forms or compounds of the elements as listed and defined in List I appearing at the end of this order. This term does not include pure tungsten or pure molybdenum, both of which are covered by NPA Order M-81.

(c) "Restricted alloying material" means any alloying material made subject to complete allocation under the provisions of this order.

(d) "Alloy product" means and includes those kinds of steel or iron hereafter defined as "alloy steel," "stainless steel," or "tool steel," and "nonferrous wrought or cast alloys," including high temperature heat- and corrosion-resisting alloys.

(1) "Alloy steel" means any steel (other than stainless and low alloy high strength steel, as defined in subparagraphs (2) and (3) of this paragraph) which contains any one or more of the following elements in the following amounts:

Manganese in excess of 1.65 percent.
Silicon in excess of 0.60 percent.
Copper in excess of 0.60 percent.

Aluminum, boron, chromium, cobalt, columbium, molybdenum, nickel, tantalum, titanium, tungsten, vanadium, zirconium, or any other alloying element in any amount specified or known to have been added to obtain a desired alloying effect.

(2) "Stainless steel" means any steel which is heat- and corrosion-resisting steel containing 10 percent or more of chromium, either with or without nickel, molybdenum, or other elements, and containing 50 percent or more of iron. This term also includes stainless-clad steel.

(3) "Low alloy high strength steel" means only the proprietary grades of alloy steel produced and sold for this purpose.

(4) "Nonferrous wrought or cast alloys" means nickel, cobalt, copper, aluminum, and other alloys containing one or more of the elements defined in List I of this order, and with less than 50 percent iron.

(5) "Tool steel" means any steel used in the manufacture of tools for use in mechanical fixtures, precision gauges, or for hand or power hacksaws. This term includes high speed steels as defined in Schedule B of this order.

(e) "Melter" means a person who produces alloy products by melting.

(f) "Alloying material supplier" means a person who produces alloying materials.

(g) "Processed product" means a product derived wholly or partially from an alloying material, by any means or process other than melting.

(h) "Processor" means a person who produces a processed product.

All definitions contained in this section 2 or List I of this order shall be applicable to the schedules at any time issued under the provisions of this order. The word "order" as used herein may include all schedules and lists issued as parts of this order.

PRODUCTION OF ALLOY PRODUCTS BY MELTING

SEC. 3. *Restrictions on melt.* No melter, who uses during any calendar month a greater quantity of any alloying material than shown on List II of this order, shall melt any such alloying material into an alloy product, except in accordance with a melting schedule which has been duly authorized by NPA under section 5 of this order: *Provided*, That, whenever an allocation authorization for the same period authorizes the use of a lesser amount of any such alloying material (which is a restricted alloying material) than permitted by the melting schedule, the use of any such restricted alloying material shall be governed by the allocation authorization rather than by the melting schedule.

SEC. 4. *Applications and reports from melters.* Each melter, who uses during any calendar month a greater quantity of any alloying material than shown in List II of this order, is hereby required to apply to NPA for approval of any proposed melting schedule on Form NPAF-60. Such application shall be filed with NPA not later than the first day of the month preceding the melt month, commencing September 1, 1951. Each melter, who uses during any calendar month a greater quantity of any alloying material than shown in List II, shall also file with NPA not later than September 7, 1951, a statement on Form NPAF-113 indicating the quantities of

each alloying material in his inventory on certain dates, and shall furnish all other data required by that form. If any melter requires delivery or use of any restricted alloying material, he shall also file, simultaneously with Form NPAF-113, an application on Form NPAF-114. He shall file a separate application for each restricted alloying material required by him. Applications for allocation of restricted alloying materials are required whether or not a proposed melting schedule is approved. Authorization of a melting schedule does not carry with it authorization of an application for allocation. Whenever it is necessary in order to complete any of the above forms required to be filed under the provisions of this section, any person who orders alloy products from a melter shall state in his order the end use (by classification and specific part name) for which such alloy product will be used. A melter may file an additional melting schedule or schedules for authorization at any time.

SEC. 5. *Changes in melting schedules.* NPA may make such changes, modifications, postponements, or deletions in any proposed melting schedule filed by a melter as, in the discretion of NPA, may be deemed necessary or advisable in order to bring about the maximum possible conservation of alloying materials in the interest of national defense. Modifications or changes required by NPA in the alloy content of a product shall be binding upon a melter whether the alloy content of such product is procured from alloying materials, as defined in List I of this order, and/or from scrap containing usable quantities of such alloying material. Upon completion of the review of any proposed schedule or modification thereof as provided in this section, the approval of the melting schedule as originally filed or as modified will be mailed on Form GA-35, the Melting Schedule Metallurgical Authorization, to each melter at least 10 days prior to the first day of the melt month.

PRODUCTION OF PROCESSED PRODUCTS BY MEANS OTHER THAN MELTING

SEC. 6. *Restrictions on processing.* No processor, who uses during any calendar month a greater quantity of any alloying material than shown on List II of this order, shall incorporate any such alloying material into any processed product, except in accordance with a processing schedule which has been duly authorized by NPA: *Provided*, That, whenever an allocation authorization for the same period authorizes the use of a lesser amount of any such alloying material (which is a restricted alloying material) than permitted by the processing schedule, then the use of any such restricted alloying material shall be governed by the allocation authorization rather than by the processing schedule.

SEC. 7. *Applications and reports from processors.* Each processor, who uses during any calendar month a greater quantity of any alloying material than shown in List II of this order, is required to apply to NPA for approval of any proposed processing schedule on Form NPAF-102. Such application shall

be filed with NPA not later than the first day of the month preceding the processing month, commencing with September 1, 1951. Each processor who uses during any calendar month a greater quantity than shown on List II of any alloying material, shall also file with NPA on the seventh day of the month preceding the processing month, commencing September 7, 1951, a statement on Form NPAF-113 indicating the quantities of each alloying material in his inventory on certain dates, and shall furnish all other data required by that form. If any processor requires delivery or use of any restricted alloying material, he shall also file simultaneously with Form NPAF-113, an application for allocation on Form NPAF-114. He shall file a separate application for each restricted alloying material required by him. Applications for allocation of restricted alloying materials are required whether or not a proposed processing schedule is authorized. Authorization of a processing schedule does not carry with it authorization of an application for allocation. Whenever it is necessary in order to complete any of the above forms required to be filed under the provisions of this section, each person who orders processed products from a processor shall state in his purchase order the end use (by classification and specific part name) for which such processed product will be used. A processor may file an additional processing schedule or schedules for authorization at any time.

SEC. 8. *Changes in processing schedules.* NPA may make such changes, modifications, postponements, or deletions in any proposed processing schedule filed by a processor, as in the discretion of NPA, may be deemed necessary or advisable in order to bring about the maximum possible conservation of alloying materials in the interests of national defense. Modifications or changes required by NPA in the alloy content of a product shall be binding upon a processor whether the alloy content of such product is procured from alloying materials, as defined in List I of this order, and/or from scrap containing usable quantities of such alloying materials. Upon completion of the review of any proposed processing schedule or modification thereof as provided in this section, the approval of the processing schedule, as originally filed or as modified, will be mailed on Form GA-41, Processing Schedule Authorization, to each processor prior to the first day of the processing month.

ALLOCATION OF ALLOYING MATERIALS

SEC. 9. *Alloying materials subject to complete allocation.* Schedules 1 through 5, inclusive, of this order, are being issued to continue complete allocation of nickel, cobalt, tungsten, molybdenum, and columbium and tantalum. These alloying materials are termed "restricted alloying materials." Separate schedules numbered consecutively from 6 upwards will be issued under this order for each alloying material to be made subject to complete allocation after the effective date of this order. Each numbered schedule makes a particular alloying material subject to complete allocation

tion and contains any special requirements, exemptions, prohibited uses, or provisions pertaining to the particular alloying material that are not contained in this order.

SEC. 10. *Restrictions on deliveries and exceptions thereto.* (a) No alloying material supplier shall deliver to any person any restricted alloying material, except in accordance with the terms of an NPA directive, an allocation authorization issued to such alloying material supplier by NPA, or except upon receipt of the certification for users of limited quantities as required by the schedules of this order.

(b) No person shall accept delivery of a restricted alloying material from an alloying material supplier except in accordance with the terms of an allocation authorization or except upon delivery of the certificate for users of limited quantities as required by the schedules of this order.

(c) No alloying material supplier shall deliver any alloying material if he knows or has reason to believe that the person receiving the alloying material may not accept delivery thereof under this order or that he will use the alloying material in violation of this order.

(d) No person shall use in any calendar month a greater quantity of a restricted alloying material than he is authorized to use for that month by this order or by Form NPAF-114 issued by NPA. When the amount of a restricted alloying material contained in the melting schedule authorization or processing schedule authorization is not the same as the amount allocated for use on Form NPAF-114, the lesser of the authorized amounts must not be exceeded.

(e) The foregoing restrictions of this section with respect to deliveries shall not apply to deliveries of restricted alloying materials made to General Services Administration or to any other duly authorized Government agency of the United States for the purpose of stock piling.

SEC. 11. *Allocation authorizations.* As set forth in sections 4 and 7 of this order, each melter and processor desiring to receive an allocation authorization for any restricted alloying material is required, commencing September 7, 1951, to file with NPA an application on Form NPAF-114. This form is required to be filed simultaneously with Form NPAF-113 on or before the seventh day of the month preceding the month in which delivery of the restricted alloying material is required. NPA may grant the application in whole or in part or may reject the application. Whenever an application is granted, in whole or in part, an authorization will be issued at least 10 days prior to the first day of the delivery month to the appropriate alloying material supplier and a copy furnished to the applicant. The copy returned to the applicant will show the amount of restricted alloying material he is authorized to use and the amount he is allowed for inventory purposes to permit continuous operation from month to month. The alloying material supplier to whom the allocation authorization is issued shall fill orders of the applicant within

the limits of the allocation authorization. No person receiving any restricted alloying material may use such restricted alloying material except in accordance with an allocation authorization. An allocation authorization issued by NPA to any person shall terminate at the close of the calendar month for which such allocation authorization was granted.

PROHIBITED PRODUCTS AND USES

SEC. 12. *Prohibited uses of alloying materials.* If the use of any alloying material for any particular purpose or product is to be prohibited, the provisions concerning such prohibition are, or will be, set forth in a schedule issued with or pursuant to this order concerning that alloying material. No person shall use any alloying material in violation of the provisions of any schedule issued with this order or which may be issued by NPA from time to time under this order.

SEC. 13. *Prohibited uses of alloy products or processed products.* On the effective date of this order, Schedule A is being issued to continue certain prohibitions with respect to the use of stainless steel, high nickel alloy steel, and nickel silver products and to add certain additional restrictions; and Schedule B is being issued to continue certain provisions and add others with respect to high speed steel and tool steel. Separate schedules lettered alphabetically may be issued under this order from time to time covering additional classes of alloy or processed products. Each schedule contains or will contain specific prohibitions or restrictions as to specific classes of alloy products or processed products and additional requirements that are not covered in this order. No person shall use or manufacture any alloy product or processed product in violation of the provisions of any schedule issued with this order or which may be issued by NPA from time to time under this order.

GENERAL PROVISIONS

SEC. 14. *Schedules.* Schedules issued under this order shall be numbered consecutively beginning with "1" or lettered alphabetically beginning with "A", and shall be designated according to number or letter as "Schedule _____ of NPA Order M-80." A schedule may be issued or amended without any change in the text of this order, and without any republication of this order or of any provision of this order. All provisions of any schedule shall be deemed to be incorporated into and made a part of this order as of the effective date of the schedule or amendment thereto, as the case may be. In the event of an inconsistency or conflict between the provisions of any schedule issued with this order or which may be issued by NPA from time to time under this order and the provisions of this order, the provisions of the schedule shall govern. Schedules may be issued or amended at any time and from time to time and shall remain in full force and effect until individually amended, superseded, or revoked. This order may be amended without any change in the text of any schedule issued herewith or from time to time.

SEC. 15. *Conservation required.* No person shall use a restricted alloying material in the production, processing, or manufacture of an alloy or processed product when it is commercially feasible to substitute some material therefor other than a restricted alloying material. No person shall use a greater quantity or higher quality of an alloying material in the production, processing, or manufacture of any alloy or processed product than is necessary to produce, process, or manufacture any such alloy or processed product on a commercially feasible basis, unless required to meet military material specifications.

SEC. 16. *Imports.* Nothing contained in this order shall prohibit the importation of any restricted alloying material: *Provided*, That any such restricted alloying material after importation and delivery to or for the account of the importer shall not be further delivered, used, or consumed except in accordance with the provisions of this order.

SEC. 17. *Relation to other NPA orders and regulations.* All provisions of any NPA regulation or order are superseded to the extent that they are inconsistent with this order or with the schedules issued herewith or from time to time, but in all other respects the provisions of such regulations and orders shall remain in full force and effect. Except as otherwise directed in writing by NPA, restricted alloying material shall be delivered only under an allocation authorization pursuant to the provisions of this order and, accordingly, DO rated orders or other preference orders shall have no effect, except to the extent that NPA takes such DO or preference rating into account in granting an allocation authorization.

SEC. 18. *Limitation on inventories of alloying materials.* No melter or processor, notwithstanding any allocation authorization received by him, shall place an order for any alloying material (except ferro-manganese and ferro-silicon) calling for delivery of, and no such person shall accept delivery of, any such alloying material at a time when his inventory thereof exceeds, or by acceptance of such delivery would be made to exceed, 45 calendar days' requirements at his then scheduled rate and method of operation. Any melter or processor who at any time has outstanding orders for any alloying material calling for delivery earlier than, or in quantities greater than, he would be permitted to receive under this section, shall forthwith notify his supplier of the extent to which delivery cannot be accepted as scheduled, and such orders shall be adjusted accordingly. Imported as well as domestic alloying materials are subject to this order and are to be included in computing inventory: *Provided*, That any alloying material acquired prior to landing may be imported even though a person's inventory thereby becomes in excess of the amount herein permitted, but, that in such event, such person may not receive further deliveries from domestic sources until his inventory is reduced to permitted levels. Any alloying material which has been processed to any degree, but has not yet been actually incorpo-

rated into a finished or partially finished product is likewise to be included in computing inventory. The provisions of NPA Reg. 1 shall continue to apply to ferro-manganese, and, for the purposes of this order, shall also be deemed applicable to ferro-silicon.

SEC. 19. Export of alloying materials. Alloying materials exported from the United States, its territories or possessions, pursuant to a validated export license issued by the Office of International Trade, Department of Commerce, are exempt from all provisions of this order and of the schedules issued with this order or which may be issued by NPA from time to time under this order, except for the provisions of section 9, and paragraphs (a) and (b) of section 10 of this order, and the provisions of this order requiring the keeping of records and the making of reports.

SEC. 20. Applications for adjustment or exception. Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in duplicate, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

SEC. 21. Records and reports. (a) Commencing September 1, 1951, every person who, at any time in a calendar month, had in his possession or under his control or who, during a calendar month, consumed any restricted alloying material in greater quantities than the minimum permitted by List II of this order shall report to NPA on Form NPAF-113 on or before the seventh day of the following months. However, if he applies on such form for an allocation of restricted alloying material for delivery during the succeeding month, his application serves also as the required report.

(b) Each person participating in any transaction covered by this order shall retain in his files for at least 2 years records of receipts, deliveries, inventories, and use, in sufficient detail to permit an audit that determines for each transaction that the provisions of this order have been met. This does not specify any particular accounting method, nor does it require alteration of the system of records customarily maintained, provided the system assures an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who have maintained or may maintain such microfilm or other photographic records in the regular and usual course of business.

(c) All records required by this order shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of NPA.

(d) Persons subject to this order shall make such records and submit such additional reports to NPA as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139-139F).

SEC. 22. Communications. All communications concerning this order shall be addressed to the Iron and Steel Division, National Production Authority, Washington 25, D. C., Ref: M-80.

SEC. 23. Violations. Any person who wilfully violates any provision of this order or any other order or regulation of NPA or who wilfully conceals a material fact or furnishes false information in the course of operation under this order is guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Schedules 1 to 5, inclusive; Schedules A and B; and List I and List II are issued simultaneously with and made a part of this order.

This order shall take effect, except as otherwise provided herein, on August 15, 1951.

(a) Deliveries to any person whose total receipts from all sources during any calendar month are not thereby made to exceed 10 pounds of columbium and tantalum, and who delivers a signed certification to his supplier as follows:

The undersigned, subject to statutory penalties, certifies that acceptance of deliveries and use by the undersigned of the columbium and tantalum herein ordered will not be in violation of NPA Order M-80 or of Schedule 5 of that order.

This certification constitutes a representation by the purchaser to the seller and to NPA that delivery of the columbium and tantalum ordered may be accepted by the purchaser under NPA Order M-80 and this schedule, and that such columbium and tantalum will not be used by the purchaser in violation of that order or this schedule.

(b) Deliveries of pure metal columbium and tantalum in any amount.

(c) Deliveries of columbium- and tantalum-bearing scrap or columbium- and tantalum-bearing ores and concentrates: *Provided*, That the use of such columbium and tantalum ores and concentrates shall be subject to sections 2 and 3 of this schedule when used as a source of columbium and tantalum in commercial melting, manufacture, or processing.

SEC. 5. Use of substitutes. No columbium-bearing steel shall be used or incorporated in any product or material if columbium-tantalum-bearing steel will meet the requirements for the use to be made of the product or material.

SEC. 6. Authorized controlled material orders required. Except as may be otherwise ordered by NPA, no columbium- or columbium-tantalum-bearing steels shall be produced, sold, delivered, or purchased, except pursuant to Department of Defense or Atomic Energy Commission authorized controlled material orders, or NPA directives or orders. The allotment symbol A-1 with respect to columbium- or columbium-tantalum-bearing steels shall be valid for deliveries on and after July 1, 1951, only when supported by a certification that delivery of the quantity specified as and when ordered has been approved and authorized by the Aircraft Production Resources Agency. Such certification shall be as follows:

Certified as approved by APRA

Such certification shall constitute a representation by the purchaser to the supplier and to NPA that the purchaser has been duly authorized by the Aircraft Production Resources Agency to accept delivery of such steel, and is entitled to accept such delivery as permitted in this schedule. The certification required by this section shall be in addition to the certification required by NPA Reg. 2. This limitation shall not apply to those items of finished steel mill products which cannot be converted into other steel mill products and which were physically held in inventory prior to February 28, 1951.

SEC. 7. Restrictions. Subject to the exceptions of section 8 of this schedule, no person, in the production of any columbium- or columbium-tantalum-bearing steels, shall use more columbium or columbium-tantalum than is reasonably required to assure a ratio between columbium or columbium-tantalum and carbon in such steels greater than 8 to 1 as a minimum: *Provided, however,* That in cases where the material specifications require corrosion testing of sensitized specimens, no person shall use more columbium or columbium-tantalum in such steel products than is reasonably required to assure that such steels meet the specific requirements with respect to corrosion testing: *And provided further,* That when practical melting schedules appropriate to achieve maximum production necessitate the inclusion in single heat lots of steels requiring corrosion testing with steels not requiring such testing, such amount of columbium or columbium-tantalum may be used as will assure steels which will meet the highest corrosion testing requirements of any such steels included in any such single heat lot.

SEC. 8. Exceptions. (a) This schedule shall not prohibit the completion of the production and the delivery of materials or products containing columbium or tantalum in any form ordered and accepted prior to April 6, 1951, which, by reason of the condition or nature of the

materials or products, cannot, without excessive loss of yield, be used in connection with authorized controlled material orders; nor shall it prohibit the use, in filling authorized controlled material orders, of columbium- or columbium-tantalum-bearing steel held on or before April 6, 1951, in the inventory of a producer or fabricator of steel products.

(b) The restrictions of section 7 of this schedule shall not apply to the production of coated welding rods.

(c) The restrictions of section 7 of this schedule shall not apply in the power generating or chemical industries to welding electrodes or high temperature applications.

(d) Any authorized controlled material order bearing the allotment symbol A-1 for columbium- or columbium-tantalum-bearing steels, authorized by the Aircraft Production Resources Agency pursuant to section 6 of this schedule, is exempt from the restrictions of section 7 of this schedule to the extent required by the specifications contained in such APRA authorization.

SEC. 9. Conservation of scrap. No person shall dispose of or accept any scrap containing commercially recoverable columbium and tantalum which is fit for remelting, except for use in the melting or processing of products in which columbium and tantalum is required.

SEC. 10. Communications. All communications concerning this schedule shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M-80, Schedule 5.

This schedule is issued simultaneously with NPA Order M-80. It shall take effect, except as otherwise provided herein, on the same date as that order, namely August 15, 1951.

[NPA Order M-81]

M-81—PURE TUNGSTEN AND PURE MOLYBDENUM

This order is found necessary and appropriate to promote the national defense and is issued pursuant to the authority of section 101 of the Defense Production Act of 1950, as amended. In the formulation of this order, there has been consultation with industry representatives, and consideration has been given to their recommendations. Consultation with trade association representatives was impossible because there is no trade association. However, consultation with representatives of all trades and industries affected in advance of the issuance of this order has been rendered impracticable due to the necessity for immediate action and because the order affects a large number of different trades and industries.

AUTHORITY: Sections 1 to 12 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, as amended; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Sup.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61.

SECTION 1. What this order does. This order applies only to carbon- and hydrogen-reduced substantially pure tungsten, and pure molybdenum, as hereinafter defined. The purpose of this order is to conserve and to provide for the distribution and use of pure tungsten and pure molybdenum so as best to serve the interest of the national defense program and of defense supporting activities. It makes pure tungsten and pure molybdenum subject to allocation. It prohibits, subject to certain exceptions, deliveries of pure tungsten and pure molybdenum except by authorizations to be issued from time to time by the National Production Authority (hereinafter called the "NPA"). It requires the filing of monthly reports.

SEC. 2. Definitions. As used in this order:

(a) "Person" means any individual, corporation, partnership, association, and any other organized group of persons, and includes any agency of the United States or any other government. A person who keeps separate inventory records for any separate operating or producing units shall treat each such separate operating or producing unit as a separate person for the purposes of this order, unless NPA otherwise directs or permits upon application of such person.

(b) "Pure tungsten" means the element tungsten in substantially pure form, processed to the extent that it is hydrogen-reduced powder, ingot, wire, rod, sheet, and chemicals and compounds, or carbon-reduced powder. Tungsten ores and concentrates, and scrap tungsten metal are not included in this definition.

(c) "Pure molybdenum" means the element molybdenum in substantially pure form processed to the extent that it is powder, ingot, wire, rod, or sheet. Molybdenum ores, concentrates, chemicals and compounds, and scrap molybdenum metal are not included in this definition.

(d) "Chemicals and compounds" means and includes such chemicals as sodium tungstate, or any other chemicals containing tungsten compounds or mixtures such as cobalt tungsten, or molybdenum tungsten mixtures.

(e) "Scrap tungsten metal" means scrap, waste material, or residues containing commercially recoverable tung-

sten which has been generated from tungsten products derived from hydrogen-reduced powders.

(f) "Scrap molybdenum metal" means scrap, waste material, or residues containing commercially recoverable molybdenum which has been generated from molybdenum products as defined in paragraph (c) of this section.

(g) "Fabricated parts" means coils, filaments, lead wires containing tungsten and/or molybdenum, and finished contacts and other parts containing tungsten and/or molybdenum which are used in or as subassemblies.

(h) "Pure metal processor" means any person who produces tungsten in the form of carbon-reduced powder, hydrogen-reduced powder, ingot, wire, rod, sheet, or chemicals and compounds, or any person who produces molybdenum in the form of powder, ingot, wire, rod, or sheet.

(i) "Fabricator" means any person who uses tungsten or molybdenum ingots, wire, rod, or sheet and who forms, bends, cuts, welds, or further fabricates ingots, wire, rod, or sheet for resale purposes.

SEC. 3. Relation to other regulations and orders. All provisions of any NPA regulation or order are superseded to the extent that they are inconsistent with this order, but in all other respects the provisions of such regulations and orders shall remain in full force and effect. Pure tungsten and pure molybdenum shall be delivered only under an allocation authorization pursuant to the provisions of this order and, accordingly, DO rated orders or other preference orders shall have no effect, except to the extent that NPA takes such preference rating into account in granting an allocation authorization. NPA may, from time to time, issue directives as to deliveries or uses of pure tungsten and pure molybdenum and, unless otherwise provided therein, such directives will prevail over the provisions of this order. The provisions of this order do not in any way affect alloy steels.

SEC. 4. Substitution required. No person, whether pursuant to a DO rated order or otherwise, shall incorporate any pure tungsten or pure molybdenum into any product or material when substitution of some other element or material (other than a restricted alloying material as defined in section 2 of NPA Order M-80) for pure tungsten or pure molybdenum is commercially feasible.

SEC. 5. Uses prohibited. No person shall use pure tungsten in the manufacture of pigments of any type, or as a coloring or coating material for rubber, linoleum, paper of any kind including but not limited to wallpaper, or grinding wheels: *Provided, however,* That these prohibitions do not apply to:

(a) The use of pure tungsten in the manufacture of pigments for coloring employed by the United States Government in the production of currency, bonds, stamps, and/or other Government securities.

(b) The use of pure tungsten in printing inks.

(c) The use of pure tungsten required by any person to comply with any order or directive of NPA.

(d) The use by any person of not more than 50 pounds (tungsten content) of pure tungsten in any consecutive 3-month period, beginning on or after March 1, 1951.

SEC. 6. Allocation authorization required. (a) No person shall deliver pure tungsten or pure molybdenum except in accordance with the terms of an allocation authorization issued by NPA, in accordance with this section, nor shall any person accept delivery of or use pure tungsten or pure molybdenum except in accordance with the terms of such an allocation authorization.

(b) NPA will, from time to time, issue allocation authorizations for pure tungsten and pure molybdenum and specifically direct the manner and quantities in which deliveries to particular persons or for particular uses may be made or withheld. Any person seeking to place a purchase order for pure tungsten or pure molybdenum may be required to place the same with one or more suppliers specified by NPA.

(c) Application for allocation must be filed with NPA by the applicant on Form NPAF-114, not later than 45 days preceding the first day of the month in which delivery is required, accompanied by the inventory statement on Form NPAF-113, unless such form has been currently filed pursuant to section 10 (c) of this order. An application for allocation for delivery in October 1951 must be filed not later than August 15, 1951. Each applicant must furnish all information required by said forms, and the requests for allocations must be correctly indicated in the tungsten or molybdenum products material classifications and size ranges.

(d) Whenever an application for allocation is granted in whole or in part, an authorization will be issued at least 10 days prior to the first day of the delivery month to the appropriate supplier and a copy furnished to the applicant. The authorization will require a supplier to make delivery to the extent of the purchasers' orders within the limits of the authorization.

SEC. 7. Exceptions to allocation requirements. The provisions of section 6 of this order shall not apply to:

(a) Deliveries to the General Services Administration or any other authorized agency of the United States for the purposes of stockpiling.

(b) The purchase of fabricated parts. Persons producing these parts, however, must secure an allocation as set forth in section 6 and must indicate the end use on their applications.

(c) The sale of pure tungsten welding rod by a person other than a pure metal processor.

SEC. 8. Limitations on inventory. No person shall place an order for or accept delivery of pure tungsten or pure molybdenum at a time when his inventory exceeds, or by acceptance of such delivery would be made to exceed, 60 days' requirements at his then scheduled rate

and method of operation. Any person who on the effective date of this order or at any time has outstanding orders for pure tungsten or pure molybdenum for delivery in quantities greater than he would be permitted to receive under this section shall forthwith notify his supplier of the extent to which delivery cannot be accepted as scheduled and such orders shall be adjusted accordingly. This section is applicable irrespective of whether or not any such orders or deliveries are made in accordance with an authorized allocation.

SEC. 9. Applications for adjustment or exception. Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in duplicate, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

SEC. 10. Records and reports. (a) Each person participating in any transaction covered by this order shall retain in his files, for at least 2 years, records of receipts, deliveries, inventories, and use, in sufficient detail to permit an audit that determines for each transaction that the provisions of this order have been met. This does not specify any particular accounting method, nor does it require alteration of the system of records customarily maintained, provided the system assures an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who have maintained or may maintain such microfilm or other photographic records in the regular and usual course of business.

(b) All records required by this order shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of NPA.

(c) Every person who at any time in a calendar month had in his possession or under his control or who during a calendar month consumed more than 25 pounds of pure tungsten or pure molybdenum shall report to NPA on Form NPAF-113 on or before the fifteenth day of the following month.

(d) Persons subject to this order shall make such records and submit such additional reports to NPA as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139-139F).

SEC. 11. Communications. All communications concerning this order shall be addressed to the Iron and Steel Di-

vision, National Production Authority, Washington 25, D. C., Ref: M-81.

SEC. 12. Violations. Any person who wilfully violates any provision of this order or any other order or regulation of NPA or who wilfully conceals a material fact or furnishes false information in the course of operation under this order is guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order shall take effect, except as otherwise provided herein, on August 15, 1951.

CIVIL AERONAUTICS BOARD

[14 CFR Part 50]

PRIMARY FLYING SCHOOL CURRICULUM

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the
Civil Aeronautics Board to the Bureau of
Safety Regulation, notice is hereby given
that the Bureau will propose to the
Board an amendment of Part 50 of the
Civil Air Regulations as hereinafter set
forth.

Interested persons may participate in
the making of the proposed rules by sub-
mitting such written data, views, or ar-
guments as they may desire. Commu-
nications should be submitted in du-
plicate to the Civil Aeronautics Board,
attention Bureau of Safety Regulation,
Washington 25, D. C. All communica-
tions received by September 4, 1951, will
be considered by the Board before tak-
ing further action on the proposed rules.
Copies of such communications will be
available after September 7, 1951, for
perusal by interested persons at the
Docket Section of the Board, Room 5412,
Commerce Building, Washington, D. C.

Section 50.13 (a) (1) of the currently
effective Civil Air Regulations requires
that a primary flying school giving in-
struction in airplanes shall provide at
least 35 hours of flight time in accord-
ance with a curriculum approved by the
Administrator. At the request of several
approved primary flying schools, the

Board has heretofore permitted certain
special curricula containing less than the
prescribed 35 hours of flight time where
the time deficiency has been compen-
sated for through specialized training in
synthetic trainers or as observer-trainee
in flight. Experience indicates that the
specialized curricula should include at
least 30 hours of flight time as a quali-
fication for private pilot certificates and
that this requirement should be part of
each primary flying school curriculum in
addition to the specialized instruction
required.

It is proposed to amend § 50.13 (a) (1)
so that all approved primary flying
schools giving instruction in airplanes
shall include in their curricula 35 hours
of flight time, or 30 hours of flight time
and such additional specialized instruc-
tion as is acceptable to the Adminis-
trator.

Specifically, it is proposed to amend
Part 50 as follows:

1. By amending § 50.13 (a) (1) to read
as follows:

§ 50.13 Flying school curriculum. * * *

(a) Primary flying school. (1) Air-
planes—35 hours of flight time, or 30
hours of flight time and such additional
specialized instruction as is acceptable
to the Administrator.

This amendment is proposed under the
authority of Title VI of the Civil Aero-
nautics Act of 1938, as amended. The
proposed amendment may be changed
in view of comments received in response
to this notice of proposed rule making.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Ceiling Price Regulation 7, Section 43, Special Order 369]

EVANS CASE CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Evans Case Co., 21 East Street, North Attleboro, Massachusetts, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant and intermediate distributors are required to send purchasers of the article a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. *Ceiling prices.* The ceiling prices for sales at retail of women's fitted handbags sold through wholesalers and retailers and having the brand name(s) "Evans" shall be the proposed retail ceiling prices listed by Evans Case Co., 21 East Street, North Attleboro, Mass., hereinafter referred to as the "applicant" in its application dated April 30, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. (and supplemented and amended in the manufacturer's application dated June 4, 1951 and June 21, 1951). A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than

September 10, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may be made, of course, at less than the ceiling prices.

2. *Marking and tagging.* On and after October 9, 1951, Evans Case Co. must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order or attach to the article a label, tag, or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price \$-----

On and after November 8, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to November 8, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the application, or changes the retail ceiling price of a listed article, the applicant named in this special order must comply as to each such article with the pre-ticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60 day period, unless the article is so ticketed, the retailer must comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

3. *Notification to resellers.*—(a) *Notices to be given by applicant.* (1) After receipt of this special order, a copy of this special order and the notice described below shall be sent by the applicant to each purchaser for resale on or before the date of the first delivery of any article covered in paragraph 1 of this special order.

(2) Within fifteen days after the effective date of this special order, the applicant shall send a copy of this special order and the notice described below to each purchaser for resale, to whom within two months immediately prior to the receipt of this special order the applicant had delivered any articles covered by paragraph 1 of this special order.

(3) The applicant must notify each purchaser for resale of any amendment to this special order in the same manner, annexing to the amendment an appropriate notice as described below.

(4) The applicant shall annex to this special order or amendment a notice listing the style or lot number, name, or other description of each item covered by this special order or amendment and its corresponding retail ceiling price. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Item (style or lot number or other description)	Retailer's ceiling price for articles listed in column 1
-----	\$-----

(5) Within 15 days after the effective date of this special order or any amendment thereto, two copies of the ceiling price notice above described must be filed by the applicant with the Distribution Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C.

(6) The applicant must supply each purchaser for resale other than a retailer with sufficient copies of this special order, amendment and notices to permit such purchasers for resale to comply with the notification requirements of this special order.

(b) *Notices to be given by purchasers for resale (other than retailers).* (1) A copy of this special order, together with the annexed notice of ceiling prices described in subparagraph (a) (4) of this section, shall be sent by each purchaser for resale (other than retailers) to each of his purchasers on or before the date of the first delivery after receipt of a copy of this special order.

(2) Within 15 days of receipt of this special order and the annexed notice, each purchaser for resale (other than retailers) shall send a copy of the order and notice to each of his purchasers to whom, within two months prior to receipt of this special order, his records indicate he had delivered any article covered by paragraph 1 of this special order.

(3) Each purchaser for resale (other than retailers) must notify each purchaser of any amendment to this special order in the same manner, annexing to the amendment an appropriate notice as described above.

4. *Reports.* Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the applicant shall file with the Distribution Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

5. *Other regulations affected.* The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it, regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

6. *Revocation.* This special order or any provisions thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

7. *Applicability.* The provisions of this special order are applicable in the United States and the District of Columbia.

Effective date. This special order shall become effective August 10, 1951.

[Ceiling Price Regulation 7, Section 43,
Special Order 390]

GOLDSTONE BROS.

CEILING PRICES AT RETAIL

Statement of considerations. This is an order establishing uniform retail prices issued upon the basis of an application filed by a supplier under section 43 of CPR 7. This section gives a manufacturer or wholesaler the right to apply for uniform retail ceiling prices for certain of his branded articles. This section requires that the articles must customarily have been sold at substantially uniform prices, and the ceiling prices applied for must not raise the general level of prices under CPR 7. The order may, of course, be amended or revoked if further review shows that the requirements of the regulation have not been fully met.

This special order requires each article to be tagged or marked with the retail ceiling price. The supplier must send to each retailer a copy of this special order, as well as a list of ceiling prices for each article or cost line and notice of all amendments. The order requires the supplier to file certain sales reports with OPS.

Retailers will be concerned with sections 1 through 6 of this special order which contain provisions applying to them. The rest of the order is of interest primarily to the applicant.

Order. For the reasons set forth in the Statement of Considerations and pursuant to section 43 of CPR 7, it is ordered that the following provisions be in effect.

Provisions for retailers. 1. *What this order does.* Sections 1 through 6 apply to you and establish uniform ceiling prices if you sell at retail the articles identified below.

Name and address of applicant: Goldstone Bros., 420 Market Street, San Francisco, California.

Brand names: "Cowpunchers".

Articles: boys' jeans.

2. *Retail ceiling prices for listed articles.* Your ceiling prices for sales at retail of the articles identified above are the retail prices listed in your supplier's application filed with OPS. These prices will be included in a list which will be annexed to the copy of this order which you will receive from your supplier. The list of ceiling prices will be filed with the Federal Register as an appendix to this special order as soon as practicable. These ceiling prices are effective 10 days after you receive this order and the ceiling price list but in no event later than 60 days after the date this order is issued. You shall not sell above these ceiling prices. You may, of course, sell below these prices.

3. *Retail ceiling prices for unlisted items.* Some or all of the retail ceiling prices in this order are fixed in terms of the cost of the article to you. Whenever you receive one of applicant's branded articles which is in the same category and which has the same net cost as one covered by the list, the ceiling price for such article shall be the same as the ceiling price for the article having that same net cost.

4. *Retail ceiling prices affected by amendment to this order.* This order may be amended from time to time or it may be revoked. If so, the applicant is required to send you a copy of the revocation or amendment, together with any list of changes or additions in retail ceiling prices. The ceiling prices contained in any such amendment become your ceiling prices.

5. *Marking and tagging.* This order requires your supplier to pre-ticket his articles by an early date. The label, tag or ticket must be in the following form:

OPS—Sec. 43—CPR 7
Price \$-----

After 60 days from the effective date of this order, unless you receive articles marked or tagged in this form, you must so mark or tag them yourself. Before that date you must mark, tag or post your prices in the manner required by the regulation which applies in the absence of this special order.

With respect to articles the ceiling prices of which are affected by any amendment to this order, the same rules apply except that you must mark or tag such articles as stated above not later than 60 days after the effective date of the amendment.

6. *Applicability.* This special order establishes your ceiling prices for the articles covered by it regardless of whether you would otherwise price the articles under CPR 7 or any other regulation. It applies to sales in the 48 states and the District of Columbia.

PROVISIONS FOR THE APPLICANT

7. *Notification to retailers.* As the manufacturer or wholesaler to whom this special order is issued, you shall do the following:

(a) *Sending order and list to old customers.* Within 15 days after the effective date of this special order, you shall send a copy of this order, together with a copy of the list referred to in Section 8 below to each purchaser for resale to whom, within two months immediately prior to the effective date, you had delivered any article covered by this order.

Within 15 days after any amendment, the amendment shall also be included with the notification to new customers.

8. *Ceiling Price list.* The ceiling price list must be annexed to a copy of the order and shall contain the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling prices fixed by the order. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Price to retailers	Retailer's ceilings for articles of cost listed in column 1
\$----- per -----	Unit, dozen, etc. Terms net, percent EOM, etc. \$-----

9. *Pre-ticketing requirements.* As the applicant to whom this special order is issued, you must, within 60 days after the effective date of this order (or in the case of an amendment within 60 days after the effective date of that amendment), mark each article covered by this order with a statement in the following form:

OPS—Sec. 43—CPR 7
Price \$-----

Instead of marking the article you may attach a label, tag or ticket containing the same information.

10. *Sales volume reports.* Within 45 days of the expiration of the first 6-month period following the effective date of this special order and within 45 days of the expiration of each successive 6-month period, you shall file with the Distribution Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which you have delivered in that 6-month period.

This special order may be amended or revoked at any time.

EXECUTIVE OFFICE OF THE PRESIDENT

Office of Defense Mobilization

[Defense Manpower Policy Statement No. 3]

POLICY AND PROCEDURE WITH RESPECT TO APPLICATIONS FOR WAGE ADJUSTMENTS FILED ON GROUNDS OF PRESENT OR IM- MINENT MANPOWER SHORTAGES

Objectives of the policy. The problems of wage stabilization and of manpower utilization are essentially different. There are a number of compelling reasons why wage adjustments should not ordinarily be used for manpower purposes. Among these are the fact that such adjustments upset established wage differentials and result in attempts by other employers to secure approval of compensating increases. Thus, the initial problem is recreated sooner or later, and inflationary pressures are increased. Moreover, wage adjustments alone are clearly inadequate to control the flow of manpower; a variety of non-wage factors are also important in accomplishing that purpose. For these reasons, it is recognized by the Office of Defense Mobilization and by the agencies represented on the interagency Manpower Policy Committee that more appropriate methods than wage inducements must ordinarily be utilized to provide the desired manpower.

While the Wage Stabilization Board cannot, therefore, adopt manpower utilization as the major criterion of wage adjustments, it may, if appropriate, approve requests for wage adjustments for manpower purposes. However, it is the policy of the Office of Defense Mobiliza-

tion and of the agencies represented on the interagency Manpower Policy Committee that requests joined in by governmental agencies for approval of wage adjustments for manpower purposes shall be submitted only in rare and unusual cases, in accordance with the procedure set forth below.

The Wage Stabilization Board will not consider requests from any governmental agency for approval of increases in wages and other compensation greater in amount than might otherwise be authorized, except in rare and unusual cases involving manpower shortages in essential defense activities or activities essential to the national health, safety, and interest. In those cases the Wage Stabilization Board will consider such requests only if the other governmental agencies concerned with the production and manpower problems certify to the Board that a concerted program has been undertaken to remedy the manpower shortages, and that an increase in wages or other compensation is one of the important elements of a concerted program required to attract labor to, or retain it in, essential defense or civilian industries, services, or plants.

Implementation of the policy. By virtue of the authority vested in me by Executive Order 10193 and to carry out the policy set forth above, *It is hereby ordered:*

1. The Department of Labor's Defense Manpower Administration will report on the manpower facts in the case. Its report will include the information called for below:

a. The nature and extent of the current or imminent manpower shortages involved.

b. The nature and effect of non-wage measures and general working conditions with respect to such factors as recruitment, turnover and absenteeism, which are being undertaken to alleviate or remedy the manpower shortage and the necessary relationship of an increase in wages or other compensation to the success of such measures.

c. The expected impact, if any, of proposed increases in wages or other compensation or employment in other essential defense or civilian activities in the area.

2. The appropriate production or procurement agency will report on the production facts in the case. This report will include the information called for below:

a. The relative importance of the product or service in the achievement of essential defense or civilian production or procurement goals.

b. The extent to which the product or service is or will be behind schedule and the consequence of failure to remedy such situations.

c. The extent to which factors other than manpower will result in failure to meet production or procurement schedules.

3. The detailed procedure for processing applications filed on grounds of present or imminent manpower shortages will be worked out by the Wage Stabilization Board with the other interested governmental agencies.

4. In deciding any petition which is based in whole or in part upon the kind of serious manpower shortage contemplated in this procedure, the Wage Stabilization Board shall give consideration to, but shall not be bound by, the recommendations of other governmental agencies.

5. The manpower and procurement agencies referred to in this policy statement will from time to time provide the Office of Defense Mobilization with reports as to the progress made in carrying out this policy. Whenever these reports raise questions as to the effectiveness of the policy, they will be referred to the interagency Manpower Policy Committee and the Labor-Management Manpower Policy Committee for any recommendations these committees may desire to make.

6. This statement shall take effect on August 17, 1951.

CAMBRIDGE GAS LIGHT CO. ET AL.

NOTICE OF PROPOSED NOTE ISSUES

* At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 13th day of August A. D. 1951.

In the matter of Cambridge Gas Light Company, Dedham and Hyde Park Gas Company, Milford Gas Light Company, New Bedford Gas and Edison Light Company, Plymouth Gas Light Company, Worcester Gas Light Company; File No. 70-2660.

Notice is hereby given that Cambridge Gas Light Company ("Cambridge Gas"), Dedham and Hyde Park Gas Company ("Dedham"), Milford Gas Light Company ("Milford Gas"), New Bedford Gas and Edison Light Company ("New Bedford"), Plymouth Gas Light Company ("Plymouth Gas"), and Worcester Gas Light Company ("Worcester Gas"), subsidiary companies of New England Gas and Electric Association, a registered holding company, have filed a joint application and amendments thereto, pursuant to the Public Utility Holding Company Act of 1935 ("act"). The filing designates section 6 (b) of the act as being applicable to the transactions described therein.

Notice is further given that any interested person may, not later than August 27, 1951, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matters, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed to: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, said amended application, as filed or as further amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said amended application, which is on file in the offices of this Commission, for a statement of the transactions therein proposed which are summarized as follows:

The applicant companies propose to issue and sell to The Travelers Insurance Company unsecured promissory notes in an aggregate principal amount of \$1,674,000. Said notes are to be dated October 1, 1951, will mature October 1, 1961,

and will be subject to a 10 percent annual sinking fund.

The following table shows the amount of notes proposed to be issued by each of the applicant companies and the interest rate per annum:

Company	Amount of notes proposed to be issued	Interest rate per annum (percent)
Cambridge Gas	\$60,000	3.375

At the invitation of the applicant companies, three insurance companies submitted proposals for the purchase of the notes. On July 11, 1951, the applicant companies accepted the proposal of The Travelers Insurance Company as representing the lowest cost of money.

The application states that the proceeds to be derived from the proposed note issues will be used by each of the applicant companies to cover the cost of adjusting customers' appliances in connection with the conversion to natural gas.

The application further states that no fees, other than counsel fees, will be paid in connection with the proposed transactions. Total expenses are estimated at \$3,700, including \$1,200 for counsel fees (exclusive of fee of counsel for The Travelers Insurance Company which the applicants may be required to assume).

The application further states that no Federal commission, other than this Commission, and no State commission, other than the Department of Public Utilities of Massachusetts, which has issued orders approving the proposed note issues, has jurisdiction over the proposed transactions.

The applicant companies request that the Commission's order herein become effective upon issuance thereof.

By the Commission.

PHILADELPHIA CO.

ORDER GRANTING AUTHORITY TO RENEW FOR ONE YEAR BANK LOAN NOTES

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 10th day of August 1951.

Philadelphia Company ("Philadelphia"), a registered holding company and a subsidiary of Standard Gas and Electric Company and Standard Power and Light Corporation, both registered holding companies, having filed a declaration, and an amendment thereto, pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of

1935 ("act"), with respect to the following proposed transactions:

On August 21, 1950, the Commission issued its findings, opinion, and order (Holding Company Act Release No. 10044), which, among other things, permitted Philadelphia to issue bank loan notes, aggregating \$17,500,000, to Mellon National Bank and Trust Co. of Pittsburgh, Pennsylvania, Chase National Bank of the City of New York, New York, Continental Illinois National Bank and Trust Company of Chicago, Illinois, and Harris Trust and Savings Bank of Chicago, Illinois. The notes, which were issued on August 23, 1950, provide for maturity one year after issuance, with an option on Philadelphia's part to renew them for two further periods of one year each, and for an interest rate of 2 percent per annum for the first year and, if renewed 2½ percent thereafter. Said order of August 21, 1950, prohibited Philadelphia from extending the maturity of any of the bank loan notes without securing a further order of this Commission permitting such extension.

Philadelphia proposes to renew, in accordance with their terms, \$16,000,000 principal amount of said notes, for a further period of one year from August 23, 1951.

The declaration, as amended, states that Philadelphia intends to prepay \$1,500,000 of the \$16,000,000 of renewed bank loan notes at some time between August 23, 1951, and December 31, 1951.

The declarant requests that the Commission's order herein become effective upon issuance.

Appropriate notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission not having received a request for a hearing with respect to said declaration, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to the declaration, as amended, that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration, as amended, be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Public Utility Holding Company Act of 1935, that said declaration, as amended, be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered, That Philadelphia shall not extend the maturity of any of the \$16,000,000 of renewed bank loan notes without prior application to this Commission and the securing of a further order permitting such extension.

By the Commission,

Secretary.
